LISTED

E328110

Process Control Equipment

TECHNICAL INFORMATION

EN

- This sensor shall only be used by qualified staff.
- The media must be suitable for the material in contact with the media. (see data sheet)
- Consider and comply with the admissible over-load. (see data sheet)
- Protect the product from direct UV solar irradiation.

DE

- Dieser Sensor darf nur von qualifiziertem Personal verwendet werden.
- Das Einsatzmedium muss für die Materialien mit Medienkontakt geeignet sein. (Siehe Datenblatt)
- Die zulässige Überlast ist zu beachten und stets einzuhalten. (Siehe Datenblatt)
- Schützen Sie das Gerät vor direkter UV/Sonneneinstrahlung.

FR

- Ce capteur doit être manipulé uniquement par des personnes qualifiées.
- Les matériaux en contact avec le fluide doivent être adaptés à l'application. (Voir la fiche technique)
- La surcharge admissible doit être prise en considération et être toujours respectée. (Voir la fiche technique)
- Protégez l'appareil de l'action directe des UV / lumière du soleil.

RANGE: rel.: -1...45 bar

SUPPLY: 24 (12...33) V=

OUTPUT: 2...10 V

T MEDIUM: -40 °C...+135 °C

T AMBIENT: -30 °C...+85 °C

The date of manufacture can be seen on the product label!

For example:

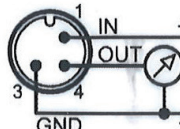

YY	MM	DD	XXX	XX	XXXX
Date as "year-month-day"					
3 digits of the order number					
Order position					
Single part number					

10 Nm

Pressure-connection

IP67

SELV

Supply: Class 2 or limited Power or Energy Source
